Calving Season is almost upon us!

Wishing all our clients a successful calving season.

While we love farm calls and usually are very happy to come out to client farms for calving and other emergencies, we can handle more appointments and emergencies if clients can haul their animals into our clinic. We have a great indoor facility and suggest you keep your trailer hooked up/ or plowed out during calving season so we can help you with your calving emergencies.

Dawson Creek Veterinary Clinic

March is Senior Animal Health Month

Is your animal in pain?

Older animals often require special joint care. Talk to our staff about specialized joint supplements, care and conditioning to help prevent injuries and relieve joint stress.

Small Animal: 250-782-5616 Large Animal: 250-782-1080

238-116th Avenue, Dawson Creek, BC Across from the Fairgrounds
